

BASE CAMP WEAR

1514

(No. 122 January 2009)

Personnel should remember that while off-shift, they remain on duty. Therefore, only authorized uniform clothing or safety clothing is to be worn while outside sleeping areas. It is the responsibility of company officers and their supervisors to ensure that personnel are properly attired at all times.

The Department has authorized the issuance of Nomex shirts to non-uniformed personnel who are assigned to incidents. Headquarters program managers should ensure that when personnel are assigned to field operations, they are in uniform or have been issued a CAL FIRE Nomex shirt.
