

GENERAL POLICIES

3261

(Sept. 1999)

It is the responsibility of Technical Services to ensure that the department's facilities are designed and maintained properly to facilitate efficiency and economy of operations. Also, it is the intent of CDF to incorporate Best Management Practice (BMP) at all facilities in order to prevent the discharge of pollutants into the storm water drainage.

Technical Services will assume a lead role in the development of various standards for facility maintenance and operations. They will provide appropriate and adequate training, as required, to ensure that the department's facilities are properly operated and maintained, to abate health and safety violations, and to preserve the capital investment.

Technical Services will be responsible for setting up preventive maintenance programs for facilities.
