

**TRAINING REQUIRED FOR CODE 3 RESPONSE OPERATION OF
EMERGENCY FIRE APPARATUS**

4033

(No. 8 May 1999)

Probationary, permanent, limited term (LT) or temporary (TAU) safety personnel must successfully complete one of the following training requirements (including course prerequisites) before operating CDF or local government contract fire apparatus under Code 3 conditions:

Driver Operator Module at CDF Academy

or

The Basic Fire Engine Operation (14-day) Course.

NOTED DRIVING DEFICIENCIES

4033.1

(No. 8 May 1999)

If an employee meets the requirements of Section 4033, but the CDF Academy staff believes that additional training, experience or testing are necessary prior to driving Code 3 or without supervision, the deficiency and a recommended course of action will be noted in the student summary.

The summary will be forwarded promptly to the employee's region. The unit manager will be responsible for assuring that the deficiency is corrected. The unit manager and the rater should return a signed copy of the student summary indicating correction of the deficiency to the Academy for inclusion in the classbook.

This same requirement will apply to students completing the Heavy Fire Equipment Operator course.
