

## FIRE PROTECTION TRAINING GUIDE - HEAVY EQUIPMENT MECHANIC

(No. 14 March 2001)

### MINIMUM QUALIFICATIONS

Possession of a valid California Class 3 driver's license. (Applicants who do not possess the license must be obtained prior to appointment.)

and

Either I

Completion of a recognized apprenticeship as a gas and diesel-powered truck mechanic, or a heavy construction equipment mechanic. (Apprentices who are within six months of completing their apprenticeship program may be admitted to the examination, but they must present evidence of completion of a recognized apprenticeship before they may be appointed.)

or II

Four years of varied mechanical experience on gas and diesel powered trucks or heavy construction equipment. An associate of Arts Degree in Heavy Equipment Maintenance, Diesel Mechanics, or Heavy Equipment Mechanics or a certificate of completion from an accredited community college or equivalent degree or certificate approved by the California Superintendent of Public Instruction under the provisions of California Education Code Section 94310(b) may be substituted for two years of the required experience. (Students who are within six months of completing their degree will be admitted to the examination but must present evidence of completion prior to appointment.)

Or III

Three years performing the duties of a Heavy Equipment Mechanic Apprentice in the California state service, at least two years of which shall have included experience on gasoline and diesel-powered heavy construction or highway maintenance equipment.
