

MANIPULATIVE PERFORMANCE TEST

Procedures Handbook 4200

ORIENTATION TO WATER
AND HOSE USE

TOPIC: PICKING UP AND DRAINING HOSE-ACCORDION
SHOULDER CARRY METHOD

TIME FRAME: 1 Minute

LEVEL OF INSTRUCTION: Level II

BEHAVIORAL OBJECTIVE:

Condition: A performance examination

Behavior: The student will disconnect, drain, pick up, and carry one length of hose using the accordion shoulder carry method under simulated fire conditions

Standard: With a minimum 70% accuracy, according to the job breakdown

MATERIALS NEEDED:

- Job breakdown
- Two lengths of preconnected hose per student
- One set full wildland PPE per student
- One stop watch

PROCEDURES:

The examination and time will start when the student either verbally or by conduct performs any step of the performance examination. The student shall complete the evolution within the time allotted.

SCORING:

Points will be deducted for each step omitted, performed improperly, or performed out of sequence. Steps designated by an asterisk (*) must be performed properly or the student fails the entire examination. If the student goes over the allotted time he/she will fail the examination.

A final score of "zero" will be given if during the examination the student performs any step of the procedure in such a way that would jeopardize the safety of personnel or equipment.

MANIPULATIVE PERFORMANCE TEST

Procedures Handbook 4200

ORIENTATION TO WATER
AND HOSE USE

SPECIAL NOTES:

Before the examination begins, the student will be allowed to ask any clarifying questions and inspect the equipment. Once the examination begins, the evaluator will not answer any questions or intercede in any way, unless a safety violation occurs that could injure personnel or damage equipment.

START TIME

POINTS

- | | | |
|----|---|-----------|
| 1. | Break all couplings and lay hose flat on ground, fully extended, in a straight line, with one coupling elevated | <u>10</u> |
| 2. | Take position at the elevated coupling facing the other coupling | <u>10</u> |
| 3. | Pick up coupling and position it in front of the body at waist height | <u>10</u> |
| 4. | Walk forward slowly allowing hose to drain while feeding excess hose over one shoulder hand over hand. Form a loop to knee height to the rear of the body | <u>15</u> |
| 5. | Continue walking forward picking up hose and allow excess hose to loop down the front of the body to knee height | <u>15</u> |
| 6. | Form alternate loops front and rear to knee height until all hose is picked up | <u>15</u> |
| 7. | Position all couplings to front of body | <u>15</u> |
| 8. | Carry hose to the designated location | <u>5</u> |
| 9. | Place hose on ground without damaging couplings | <u>5</u> |
