

ANNUAL LICENSE RENEWAL

5434

(No. 3 June 1991)

To maintain a valid license, the holder of a timber operator license or limited timber operator license must send an application for renewal with the proper fee to the Director. The application and fee must be received in the Sacramento Headquarters office or be postmarked by the end of the first work day after January 1, or the license will expire, and a new license will be required (14 CCR §1026).

A license is not transferable in any form. The Sacramento office will process an application for renewal that appears to involve a transfer. The fee will be deposited to the applicant's license account, and if it is determined there is a change in the business entity, the applicant will be asked for the remainder of the new license or limited license fee. Upon receipt of the full fee, the new license or limited license will be issued to the new business entity.

If a new license must be issued to a person or entity previously licensed, a new license number will be assigned.
