

TIMBER HARVESTING PLANS

5440

(No. 3 June 1991)

The following instructions pertain to the process for reviewing THPs in accordance with the Z'berg-Nedjedly Forest Practice Act of 1973 (FPA) and the rules promulgated by the Board of Forestry. These instructions supersede all previous instructions relating to THPs.

The act requires that THPs, exemptions to THPs, or emergency notices, be submitted for all timber operations on timberlands in California except lands owned by the federal government and those designated by the board as experimental forest lands. The board has not designated any experimental forestlands. THPs submitted for nonfederal public lands shall be treated the same as all other plans.

The rules promulgated by the Board of Forestry set the standards for timber operations conducted under the act and for administration of the act by the Director of Forestry and Fire Protection. Copies of these rules can be obtained by writing the following address and requesting Division 1.5, Title 14, CCR.
