

DEFAULTING ON REQUIRED INSPECTIONS

5469

(No. 3 June 1991)

PRC § 4586 and 4588 require CDF to determine by inspection that the completion and stocking reports received are correct in their statements about compliance with the FPA and forest practice rules. The sections further specify that the department has up to six months from receipt of reports to verify them. This time period should be met by CDF. Failure to verify the reports within the six-month time frame results in their being cleared by default. This type of failure could be embarrassing when rule violations exist.
