

## **ANNUAL FOREST PRACTICE REPORT**

**5495**

(No. 6 January 1999)

Each region chief will submit a report to the Director on FPA activities for the calendar year. To allow time for analysis and consolidation, send the region's forest practice report to the Sacramento office by February 1st. The report is a combination of statistical and narrative material, including information that cannot be handled statistically, such as that concerning accomplishments, problems, and recommendations. It also includes information concerning the inspection process and compliance trend, enforcement progress, program administration, and judgments on law and regulations.

The Forest Practice Annual Report (not available in e-format) shows the information to be collected and submitted to Sacramento Resource Management. The information to be collected may change slightly from year to year to meet current needs, but Sacramento staff will inform the region of any changes before December of each year.
