

FIRE CREW PERFORMANCE EVALUATION

6268

(May 2003)

Responsibility

Division Chief

In order to ensure the fire readiness of the fire crew resources, each camp will conduct an annual Fire Crew Performance evaluation of each fire crew using Exhibit 6268, [Fire Crew Performance Criteria CDF Type I and Type II Fire Crews](#), as the performance standard. The evaluation should take place prior to fire season with re-evaluations throughout the year as crew membership changes.

Preparation for the evaluation should stimulate local fire crews and engine companies to drill together on progressive hoselays and line construction. This interface can have a positive effect on attitudes toward teamwork on fires. A centralized fire resource performance evaluation exercise may be utilized, or local evaluations must be conducted. Individual fire crew and engine company drills in preparation for the evaluation are encouraged.

FIRE PREPAREDNESS EXERCISE STANDARDS

6268.1

(May 2003)

Minimum performance standards for the certification of a CDF Type I or Type II Fire Crew are contained in Exhibit 6268, [Fire Crew Performance Criteria CDF Type I and Type II Fire Crews](#).
