

## **RELEASE/DEMOBILIZATION FROM INCIDENTS**

**6562**

(No.21 May 2016)

### **Responsibility**

**All**

Proper procedures will be followed in obtaining release from emergency assignment prior to actual departure. Lunches for the return trip to the home camp will be provided by the emergency base/camp. The Fire Crew Captain or strike team/task force leader will be responsible for drawing a sufficient number of lunches to supply each crew, including custodial staff. Rations, batteries, and other replacement items will be drawn prior to leaving the base/camp. If a CDCR staff member needs replacement items, the strike team/task force leader or the Fire Crew Captain will secure those items.

## **VEHICLE MAINTENANCE SAFETY CHECKS**

**6562.1**

(No.21 May 2016)

### **Responsibility**

**All**

Vehicle maintenance checks may be required before release from an emergency and should be anticipated. Cooperation with inspection personnel is required and will expedite demobilization. Custodial vehicles that have been to the emergency operational area are to be included in the safety checks.

## **VEHICLE SEARCH**

**6562.2**

(No.21 May 2016)

### **Responsibility**

**All**

A vehicle search should be conducted before leaving the emergency base/camp to ensure that no item of contraband is aboard the vehicle. This search should be conducted jointly by representative(s) of the emergency incident team, the Fire Crew Captain, CDCR staff, and, optionally, the strike team/task force leader.

If, at any time, CAL FIRE or CDCR suspects that contraband may be aboard the CCV, a search should be conducted by the appropriate personnel.

Incident security personnel may conduct random or routine checks of any assigned vehicle for unauthorized or excess incident materials.
