

BUDGET CYCLE RULE OF THUMB

6722

(January 1988)

To tentatively determine when replacement equipment will arrive, check the March through June calendar year in which the item was approved for replacement. If the item is a state contract or off-the-shelf item, add one year for expected arrival of the replacement. (For example, if the item was approved in May 1989, add one year and expect the replacement in June 1990.) If considering a fire engine or other type of equipment construction, add two years.
