

## **NEW EQUIPMENT**

**6732**

**(January 1988)**

The Davis Equipment Facility (DEF) accepts, outfits and assigns all new mobile equipment. When a new vehicle is ready for delivery to the field, DEF transmits a release document to the region giving the type, license number, etc., of the vehicle.

The region will advise the appropriate administrative unit that the new vehicle is ready and will ensure that the old vehicle is turned in with equipment as listed in the release. Field personnel picking up new equipment must present a copy of the release to the DEF. By calling ahead and estimating a date and time of pickup, field personnel can minimize the transfer time.
