Fuel Purchases (Multi-Company Credit Cards)

The Department of Forestry and Fire Protection, as well as other State agencies, pays the posted pump price for fuel purchased with Multi-Company Credit Cards.

As a general policy, State drivers should use self-service pumps when purchasing fuel on credit cards, since there is a substantial difference in the cost of self-service versus full-service prices. Considering total department purchases, the potential savings from using self-service pumps can be significant.

Safety and proper vehicle maintenance is the responsibility of each individual driver. Therefore, routine maintenance checks of fluid levels and cleaning of windshields and window glass will be necessary with each purchase.
