## FIX-N-FAX Equipment Standard

Number 17

Mandatory Compliance  
Revised: October, 2008

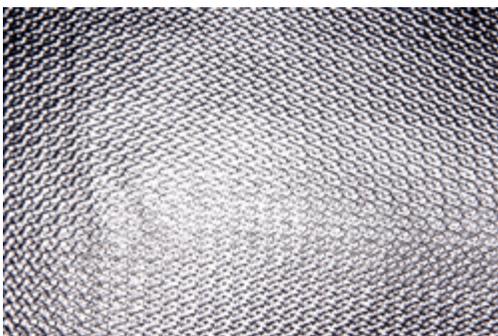

### FIRE CURTAIN/BLANKETS – FIRE ENGINES and DOZERS

This Fix-N-Fax specifies the material and procedures for ordering replacement fire curtains and blankets for all Fire Dozers and Fire Engines which were manufactured with fire curtains and blankets as part of the standard complement.

Engines which require fire curtains or blankets are all Model 1's, 5's and the open rear seating Model 9's. As fire resistant blankets and curtains are replaced, the new material will be **GENTEX®** Brand DUAL MIRROR aluminized fabric textile.

Back View

To maintain consistency in construction and design, all fire resistant blankets and curtains shall be ordered from Pilot Rock Camp.

Pilot Rock Conservation Camp has patterns to fabricate Fire Engine blankets for the Model 1's and 5's. To order; complete a Material Requisition or Transfer F-72 (MRT) and specify, "Model 1-5 Canister Blanket Set".

The dimensions of the open rear seating Model 9 curtain vary from year model to year model. To place an order for the open seating Model 9 Fire Engine, provide an MRT and supply a dimensional drawing of your current curtain using the attached "Curtain Dimension Form"

To order Fire Dozer Curtains, provide an MRT and complete the attached "Curtain Order Form" along with the "Curtain Dimension Form".

Please provide all pertinent information along with the required attachments as outlined in this Fix-N-Fax and mail or fax to the following;

Pilot Rock Conservation Camp  
P.O. Box 3670  
Crestline, CA 92325

Phone: (909) 338-2812  
FAX: (909) 338-4603
