

8100 PROCEDURE 210

Fire Weather Forecasts

(January 2010)

[\(See National Weather Service's California Fire Weather Web Page\)](#)
[\(See HB 8100p212 – Fire Weather Watch and Red Flag Warning\)](#)

The Emergency Command Center Dispatch Areas (ECCDA) forecast from the National Weather Service (NWS) is available at the California Fire Weather Web Page. This page contains fire weather forecasts by ECCDAs and by NWS Fire Weather Zones (FWZ). The web page also displays the NWS Red Flag Warnings and Fire Weather Watches for California.

Responsibilities and Action

Any CC

1. Using the Internet, select the California's Fire Weather Web Page using the link above.
2. Find and select on the appropriate area(s) within the Unit's ECCDA forecast.
3. Transmit ECCDA Forecast to the unit as per local policy.
4. Notify and forward all Watches and Warnings to the Duty Chief as per local policy.

Region OCC

1. Notify and forward all Watches and Warnings to the Duty Chief as per policy.

Sacramento CC

1. Notify and forward all Watches and Warnings to the Duty Chief as per policy.
