

## **8100 PROCEDURE 821**

### **Reporting Power Transmission Line Threats to CA-ISO**

(No.30 January 2014)

To assist in preventing a disruption of the California power grid, CAL FIRE will notify the California Independent System Operator (CA-ISO) when wildland fires are determined to be a threat to power transmission lines.

#### **Responsibilities and Action**

##### **Unit ECC**

1. Receive notification from the Incident Commander (IC) of a threat to 66KV or greater power transmission lines.
2. Advise Unit Duty Chief and Region OCC.

##### **Region OCC**

1. Receive power transmission line threat information from the Unit ECC.
2. Notify Region Duty Chief and the Sacramento CC.

##### **Sacramento CC**

1. Receive power transmission line threat information from the Region OCC.
2. Notify CA-ISO utilizing one of the following numbers:
  - a) (916) 351-2492 (primary)
  - b) (916) 351-2497 (back up)
3. Notify the Sac Duty Chief.
