

## **POLICY AND PROCEDURE DEFINED**

**8103**

(No.11 August 2012)

[\(See Policy 0602 – General Policy\)](#)

Polices are defined in the Information Handbook 0600.

Procedures give direction on how to accomplish job tasks. They standardize the processes for all Command/Coordination Centers, also referred to as CC and OCC throughout this handbook, and ensure that the tasks are performed in a uniform manner that leads to an expected result. Standard CAL FIRE Command and Control System Procedures are located in the 8100 Command and Control handbook.
