

RESOURCES

8350

(Revised September 2001)

The objective of the Resources section is to provide a current directory of aviation resources, types and capabilities available for incident operations in California.

These directories include the following:

- Incident Command System Aircraft Types (see ICS Field Operations Guide, ICS 420-2).
- Helicopters.
- Airtankers.
- Airtanker Number Allotments, Nationwide
- California Interagency Military Helicopter Firefighting Program, Operating Plan

It shall be the responsibility of the Aviation Management Unit staff to annually update and distribute through normal Issuance channels the following:

List of CDF/USFS/BLM airtankers and helicopters.

List of CDF aircraft contractors.

List of CDF "Call-when-needed" directories.

List of Mobile Retardant Base contractors and contact information

The Resources section will be continually updated each fire season.

NOTE: When requesting resources refer to the appropriate section in the 8100 manual.
