

## **PURPOSE**

(No. 49 February 2005)

**8512**

The purpose of mutual aid is to ensure rapid attack in strength by the nearest available forces regardless of source or agency in the interest of economy, to avoid duplication, and to minimize the number of large fires. Because no agency can afford an organization that will meet all needs, CDF's organization is designed to expand rapidly to include both CDF resources and those of cooperators.
