

FEDERAL GOVERNMENT

8520

(No. 49 February 2005)

THE NEED FOR COOPERATION

8521

(No. 10 July 1990)

National Forest System lands, public lands administered by the Bureau of Land Management, other federal lands and State Responsibility Area (SRA) lands are intermingled in many areas of California. In order to avoid costly duplication of facilities, equipment and personnel, CDF and various federal agencies cooperate in sharing fire control resources. Under PRC §4141 authority, CDF contracts with federal agencies. Contract obligations vary with each agency. Refer to individual agreements for more specific details.
