

DEPARTMENT OF WATER RESOURCES AGREEMENT 8532
(No. 49 February 2005)

A formal agreement exists with Department of Water Resources which provides that CDF will supervise conservation camp and fire center crews in performing services for the Department of Water Resources (DWR). One such service is flood fighting. DWR is not responsible for flood fighting throughout California, however.

Flood fighting for agencies other than DWR can be done when the total cost is less than \$5,000 or when an OES request number is issued (refer to [8570 Nonfire Emergencies](#) Section in this handbook).

More information is contained in the DWR flood manual.
