

FIRE PROTECTION PLAN

(No. 49 February 2005)

8542

The plan for CDF's protection of the SRA and other lands within contract counties is included within CDF's Fire Protection Plan and is the same as for other SRA. In setting the level of fire protection service to be provided under contract, the Director provides for sufficient fire protection resources that will give an equal degree of protection to lands of equal value and requires that these protection resources be in place. CDF funds the planned protection resources at CDF cost.
