

FIRE PROTECTION PLANNING ANNUAL REPORT (CDF-92) 9059

(No. 7 September, 1991)

At the end of each calendar year, the Fire Protection Planning Annual Report (CDF-92) should be completed and added into the Unit Fire Prevention Plan. The report format is generally self-explanatory and should be compiled into a single summary for transmission to Region. The "Carried Over" column should include those applications and maps that are submitted during the current calendar year but are held over for the new year for action and/or determination.
